MONMOUTH Liberal Democrats - working hard all year round

Working all year round

The countryside belongs to us all and Welsh Lib Dems want to increase opportunities for people to have their say in how it's run.

Special protection status for green areas valued by the community, as well as tackling affordable housing and giving communities more power to run services.

Working with local Councillors to ensure that Tourist Information Centres retained their face-to-face personal service as well as embracing new technology

Abergavenny

Monmouth

In the Assembly Veronica German challenged the Labour/Plaid government about the 1200 hours wasted every month in our region when ambulances are forced to queue outside Accident and Emergency departments.

Across Monmouthshire Welsh Lib Dems have been challenging MCC about increasing car parking charges and introducing charges to currently free car parks.

A fair deal for ALL Children

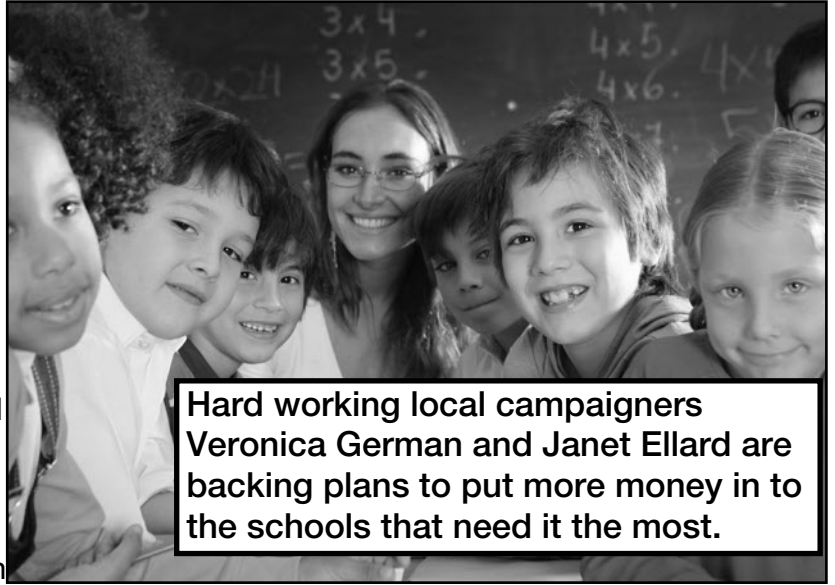

The Lib Dems will give more money to schools

Our children have been let down by Labour. In Wales, our schools are now funded less than schools in England.

The Lib Dems in government are putting extra money in to schools in deprived areas. That means the children who need it the most are getting extra help in school.

Local campaigners Veronica German and Janet Ellard said "Do you think children in England should have a better chance at success than children in Wales? That's what Labour and Plaid have allowed. A child in England gets over £600 a year more spent on them than a Welsh child. It's simply got to change.

"The Lib Dems will put more money in schools in Wales by cutting out Labour's waste."

Hard working local campaigners Veronica German and Janet Ellard are backing plans to put more money in to the schools that need it the most.

Let's end Labour's waste - now!

Even in these difficult economic times, Labour are wasting millions and millions of pounds every year.

Labour and Plaid have spent more money on economic development than any other part of the UK, but Wales is now the poorest part of Britain and we're falling further behind.

They spent more of our money on the NHS than England, but we put up with longer waiting times for treatment, and wait longer for ambulances.

A senior finance manager revealed that £1 billion was not being spent effectively on our NHS. Yet repeatedly the Labour-Plaid government refused to investigate these claims.

And here in Monmouthshire we are still waiting for news on a new specialist hospital and the future of our minor injuries units.

Lib Dems cut taxes for ordinary people

Liberal Democrats in Government have delivered a £326 tax cut for Britain's lowest paid workers.

The announcement made at the budget means that soon no-one will pay any income tax on the first £8,105 they earn.

Unlike Labour who took them for granted, Lib Dems in Government are delivering a fairer deal for hardworking families.

■ 23 million people get £326 tax cut

■ 1.1 million low paid workers to pay no tax by 2013

Making a difference

Better Education for our Children

Thanks to Labour and Plaid, children in Wales get a worse start than in England.

Children in Wales get over £600 less spent on them than English children.

The Welsh Liberal Democrats will invest more money in schools and teachers - cutting the spending gap with England.

A better NHS That delivers For YOU

Labour and Plaid are wasting a staggering £1 billion in our NHS. They've wasted money shuffling bureaucrats around instead of focusing on the real problems. This money should have been spent on healthcare - wasting it is a disgrace.

The Welsh Lib Dems will cut out the waste and deliver shorter waiting times for treatment. Patients in Wales shouldn't have to wait twice as long as in England.

Better use Of our money

Labour and Plaid have a long track record of wasting millions of pounds on hopeless schemes like flying politicians across Wales. Spending more on economic development yet Wales is the poorest part of Britain.

Only the Welsh Lib Dems are committed to putting money where it matters most - investing in services and jobs.
